Enrich ~ Empower ~ Ignite

Year 1
Autumn 1

English	Books	Mathematics
The focus in English is on traditional tales, where children will explore story structure, characters, and common themes. They will develop their descriptive writing skills by practicing using adjectives, sensory details, and engaging language. This will help them create more imaginative and detailed stories. They will also be writing instructions on how to make Pumpkin Soup, linked to our class text.	 	Year 1 will be focusing on place value within 10 and addition and subtraction to 10. They will learn to recognise, count, and represent numbers up to 10. They will develop their understanding of the value of each digit and begin comparing and ordering numbers. Through practical activities and visual aids, they will develop fluency in simple addition and subtraction within 10, using objects, number lines, and mental strategies.
Science	History	Art & Design
In Science, children will learn about the seasons of autumn and winter. They will explore the changes in weather, daylight, temperature, and changes in clothing and activities.	Children will explore how cameras have changed over time, comparing old and modern cameras. They will learn how photography has developed and how changes in technology have made taking and sharing photographs easier.	In Art, children will be exploring the theme “Make Your Mark” by learning about different types of lines. They will experiment with various line styles such as straight, curved, zigzag, and dotted to create unique patterns and designs. This work helps develop fine motor skills and encourages creativity as children discover how lines can express different ideas in their artwork.
Religious Education	Outdoor Learning	PSHE
In Religious Education, children will explore different beliefs about how the world began. They will learn about creation stories from various cultures and religions, encouraging respect and understanding of other beliefs. Through discussions and storytelling, children will reflect on big questions about the world and their place in it.	Children will explore the changes that happen in nature during autumn. They will observe seasonal changes, explore the outdoors, collect natural materials and notice how plants, trees and animals are affected by the changing weather.	Children will learn about how to keep healthy. They will explore healthy choices, emotions and feelings, and develop strategies for managing their emotions and keeping themselves safe, happy and healthy.
Music	PE	Key Information
Children will learn a range of songs linked to the up and coming Harvest assembly. They will begin to understand the different genres and musical compositions.	In PE, children will focus on Football and ball skills with an emphasis on using a range of attacking and defending skills. Within the games they will vary the	Homework: Daily reading; One Minute Maths; Spellings
