## **NEW SYSTEM BOOKING INFO**

Sport4Kids/ActivKids have launched a new booking system! This will allow you to register with S4K, add your children's names and details and then book and edit sessions without the need to fill in the whole form again each term, you will also be able to add Camp bookings, weekend skills class bookings and edit contact details quickly and easily. It is a very user friendly system and we have already had rave reviews from parents!!

### **TO BOOK**

1. Go to <https://bookings.sport4kids.biz>.
2. Search your school name or the camp venue.
3. Select the session you would like to book. Click book to confirm.
4. When prompted select "Register" this will allow you to register with S4K
5. Follow the steps to register and book a session. You will be able to add multiple child details at this stage and save them for use on future bookings.
6. Once you have selected the classes to book you can proceed to payment and check out, using card payment or childcare vouchers.
7. Sibling discount will automatically be applied.
8. You will receive email confirmation of your registration, temporary password and a link to download the S4K App should you wish to edit sessions and see bookings quickly and easily on your phone.
9. You will also receive a separate e-ticket email confirming your booking with an attachment for information that you may need to know before your child attends.

The system has been road tested extensively but as with all new systems there may be teething problems. If you have any questions please call 0300 303 3866 and the team will be able to help you.

**Many Thanks,**

**David Joy**
